

## Technical Specification: BuffetCube Tables

The **BuffetCube** is a highly flexible buffet table system made of folding underframes and click-on tops. There are also different frame heights that will allow you to create an interesting 'buffet landscape'.

### Features include:

- Folding underframe in a silver epoxy powder coating or chromed steel
- Table tops available in; high pressure laminate in a range of colours or 10.8mm laminated glass
- Options such as wooden edge, built-up wooden edge or brushed aluminium edge are available
- The glass top has an opaque finish with a 'Mint' coloured polyurethane moulded edge
- Available in five standard heights; 600mm, 750mm, 900mm, 1050mm or 1200mm
- Plate elevation stands also available
- Table trucks are available for easy transport and storage
