

SmartRocks®

Play. Sit. Recharge. You are in control

Like pebbles on the beach, SmartRocks® is a trendy modular combination of low stools and benches. With a choice of a power tower and low stools in different shapes and sizes this new range by Burgess will complement any casual and co-working environments and bring a touch of fun into your interiors.

Designed by David Hill, these clever rocks will allow your guests to power up any device in no time whilst drifting away sitting comfortably.
