

Sit and Stand Flip-Top

“Elevate your work experience with the Sit and Stand”

It has been proven that providing tables that encourage the end user to alternate between sitting and standing can provide health benefits and also increase productivity.

The Sit and Stand Flip-Top table offers the practicality of elevating from 74cm to 139cm high at the flick of a button and with a white HPL table top it can also transform into a projector screen in an instant. An additional writable hook-on white board is also available as an option.

With electrical sockets built into the frame, the table allows the end user to power devices in one place. The castors ensure the table can be easily moved around and when flipped, stored away in echelon to minimise space.

140-180cm

With the Sit and Stand you are able to adjust the height of the table to your personal preference from 74cm to 139cm.

— Key Features

- ✦ Flip-Top mechanism aids storage
- ✦ Hook-on white board available on request
- ✦ Electric up & down mechanism with anti-collision detection system
- ✦ Integrated electric sockets
