

Nestr

Create a striking display that's perfect for your space

Nestr is a range of presentation tables ideal for use with buffets, displays and more. 3 height options seamlessly nest together to reduce storage footprint, and with rectangle and square shapes, you get flexibility on layout design.

The steel frame can be powder coated with our wide range of solid finishes so you can match your aesthetic. Not only that, but you'll save on laundry thanks to a huge variety of high-pressure laminate table tops, available with matching ABS edging – so no need for a table cloth.
